

DRAFT COMMUNITY PLAN 2030

THE CITY OF VICTOR HARBOR IS SEEKING FEEDBACK ON ITS DRAFT COMMUNITY PLAN 2030.

Over the past year, the Council has been preparing a new Community Plan for Victor Harbor.

The plan will help shape Victor Harbor's future and will play an important role in guiding Council's decision making.

The draft Community Plan 2030 has been developed in two stages. The first stage involved the development of broad strategic directions which included a set of aspirations for Victor Harbor's future and the strategies that need to be in place to help achieve them.

The second stage, where we are now, involved the development of a detailed plan which outlines how Council intends to work towards achieving our shared aspirations for Victor Harbor.

ABOUT THE DRAFT COMMUNITY PLAN

The draft plan centres around six aspirations that express a vision for Victor Harbor now and in the future. These aspirations include:

- We are a caring, connected and active community
- We have a culture of innovation, collaboration and creativity
- We manage growth and change responsibly
- We protect our environment
- We have services and infrastructure that meet our community's needs
- We are a financially sustainable and well-governed organisation.

The draft plan also identifies a number of strategies (long term) and priorities (medium term) that will help Council work towards achieving its aspirations, and provides a brief snapshot of what success looks like.

Other components of the draft plan include:

- Descriptions of the roles of Council
- Overview of the Council's strategic planning framework
- Key themes that were evident through community conversations
- Challenges and opportunities
- List of council plans, strategies and services.

WE'VE BEEN LISTENING

Our community is at the heart of this plan. Over the past few years the Council has conducted a number of significant engagement activities where the community has the opportunity to share their thoughts and ideas. This plan has been developed based on what you said was important.

To make sure we were on the right track, we sought further community comment on a set of proposed aspirations for Victor Harbor's future and the things that needed to be in place to achieve these aspirations.

The most recent consultation indicated that the Council's strategic focus for Victor Harbor's future is in line with the community's needs and aspirations.

Releasing the draft Community Plan 2030 for further community comment will enable us to again check in and make sure we are on the right track.
